The performance data quoted represents past performance. Past performance is no guarantee of future results. The investment return and principal value of an investment will fluctuate; an investor's shares, when redeemed, may be worth more or less than their original cost. The Adviser has agreed to waive and/or reimburse certain Funds' expenses, if necessary, pursuant to a contract expiring on August 29, 2037, unless renewed for another 11-year term and the Funds' transfer agency expenses may be reduced by expense offsets from an unaffiliated transfer agent, without which performance would have been lower. Current performance may be lower or higher than the performance data quoted. For performance information current to the most recent month end, visit BaronCapitalGroup.com or call 1-800-99-BARON.

All GICS structure changes that have occurred since 2016 have been applied retroactively in historical holdings-based analyses, including performance attribution. The Adviser may have reclassified/classified certain securities in or out of a sub-industry within a sector. Such reclassifications are not supported by S&P or MSCI. 2 - Source: FactSet PA and Baron Capital. 3 - Source: FactSet SPAR. Except for Standard Deviation and Sharpe Ratio, the performance based characteristics were calculated relative to the strategy's benchmark. 4 - The numbers and percentages shown are based on individual securities held in one or more of the underlying funds. 5 - Individual weights may not sum to 100% or the displayed total due to rounding. 6 - The Adviser has agreed that, pursuant to a contract with an 11-year term terminating on August 29, 2037, it will reimburse certain expenses of the Fund, limiting net annual operating expenses (portfolio transaction costs, interest and dividend expense, acquired fund fees and expenses, fees and expenses related to filing foreign tax claims, and extraordinary expenses are not subject to the operating expense limitation) to 0.05% of average daily net assets of Institutional Shares. Only the Board of Trustees of the Fund may terminate the expense reimbursement agreement prior to its termination date.

Risks: The Fund is a diversified fund because it invests, at any given time, in the securities of a select number of Baron mutual funds and Baron exchange-traded funds (the "Underlying Funds"), representing specific investment strategies. Each of the Underlying Funds has its own investment risks, and those risks can affect the value of the Fund's investments and therefore the value of the Fund's shares. For further information regarding the investment risks of the Underlying Funds, please refer to the prospectus of the respective Underlying Fund.

Portfolio holdings may change over time. Current and future portfolio holdings are subject to risk.

Investors should consider the investment objectives, risks, charges, and expenses of the Fund carefully before investing. The prospectus and summary prospectus contain this and other information about the Fund and can be obtained from the Fund's distributor, Baron Capital, Inc., by calling 1-800-99-BARON or visiting BaronCapitalGroup.com. Please read them carefully before investing.

The **S&P 500 Index** measures the performance of 500 widely held large-cap U.S. companies. The **MSCI ACWI Index Net (USD)** is designed to measure the equity market performance of large and midcap securities across 23 Developed Markets and 24 Emerging Markets countries. MSCI is the source and owner of the trademarks, service marks and copyrights related to the MSCI Index(es). The MSCI Index(es) and the Portfolio include reinvestment of dividends, net of withholding taxes, while the other index(es) include reinvestment of dividends before taxes. Reinvestment of dividends positively impacts the performance results. The index(es) are unmanaged. Index performance is not Portfolio performance. Investors cannot invest directly in an index. Morningstar calculates the **Morningstar Aggressive Allocation Category Average** performance and rankings using its Fractional Weighting methodology. Dev.):** measures the degree to which a fund's performance has varied from its average performance over a particular time period. The greater the standard deviation, the greater a fund's volatility (risk). **Sharpe Ratio:** is a risk-adjusted performance statistic that measures reward per unit of risk. **Alpha:** measures the difference between a fund's actual returns and its expected performance, given its level of risk as measured by beta. **Beta:** measures a fund's sensitivity to market movements. The beta of the market is 1.00 by definition. **R-Squared:** measures how closely a fund's performance correlates to the performance of the benchmark index, and thus is a measurement of what portion of its performance can be explained by the performance of the index. **Tracking Error:** measures how closely a fund's return follows the benchmark index returns. **Information Ratio:** measures the excess return of a fund divided by the amount of risk the fund takes relative to the benchmark index. **Upside Capture:** explains how well a fund performs in time periods where the benchmark's returns are greater than zero. **Downside Capture:** explains how well a fund performs in time periods where the benchmark's returns are less than zero. **Active Share:** a term used to describe the share of a portfolio's holdings that differ from that portfolio's benchmark index. It is calculated by comparing the weight of each holding in the Fund to that holding's weight in the benchmark. Positions with either a positive or negative weighting versus the benchmark have Active Share. An Active Share of 100% implies zero overlap with the benchmark.
